Big Sky Montana Baseball Club – Expectations

The purpose for Big Sky Montana Baseball is to give talented and hard working Montana high school baseball players the opportunity to receive exposure to College Baseball Programs and Pro Baseball. College Baseball Programs have limited funds to travel to see players play in high school, especially in Montana. We train and prepare a select Montana team to travel to the select Junior Colleges and Select High School Baseball showcases on the weekends of the fall season. It is at these showcases that many coaches and scouts see our players play.

We want to showcase your specific baseball talents and we will play you in positions that best suit your baseball talent, for playing in college. Every player has individual skills to play a specific position or two. Our purpose is to not change your swing, fielding technique or pitching mechanics, unless you want us to do so, to improve your skills. We respect your Legion Coach and his work with your baseball skills.

Our game plan is not to play completely to win, but to allow coaches see you in your game. We will let pitchers stay in longer to show how they can handle the adversity, and can they work out of bases loaded situations. This is what the college coach wants to see.

We will not press you to work hard to improve your talent. You are responsible for your preparation to showcase your ability. We will be there to help you if you want us to.
